HAVE YOU EARNED YOUR TOMORROW? POEM BY EDGAR ALBERT GUEST

Is anybody happier because you passed
his way?
Does anyone remember that you spoke to
him today?
This day is almost over, and its
toiling time is through;
Is there anyone to utter now a kindly
word of you?

Did you give a cheerful greeting to
the friend who came along?
Or a churlish sort of "Howdy" and then
vanish in the throng?
Were you selfish pure and simple as
you rushed along the way,
Or is someone mighty grateful for a
deed you did today?

Can you say tonight, in parting with
the day that's slipping fast,
That you helped a single brother of
the many that you passed?
Is a single heart rejoicing over what
you did or said;
Does a man whose hopes were fading now
with courage look ahead?

Did you waste the day, or lose it, was
it well or sorely spent?
Did you leave a trail of kindness or a
scar of discontent?
As you close your eyes in slumber do
you think that God would say,
You have earned one more tomorrow by
the work you did today?

FEMINISM

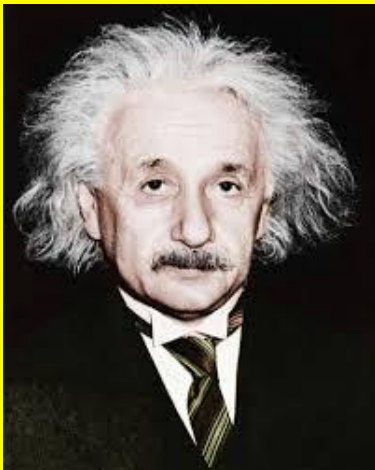

Girls , To most people this word means soft ,shy ,weak always smart or good for nothing being sent in this world to serve the males of the species This gender is always looked down at ,The sentence "Boys don't wear makeup" is probably discovered because only girls are told that they look ugly without makeup And because of this young boys are not able to do what they love. When a girl asks why she can't go alone at night ,The answer always is "You might be attacked" If a child is being attacked and they blame it on her for going alone at night if they blame it on her a child or even a adult the problems not with her it's with the society. This society has double standards on males and females Now if we talk about boys they are thought that they should never cry or show their feelings which affects their mental health, they are demanded to be manly and not

themselves Even 98.2% child custody is given to mother's after divorce. Even if she was the one who made the mistake which affects the child. When male slaps female it is known as domestic violence, but if a female slaps a male Nobody cares about it, What people need to understand is violence regardless of gender. This society needs to open it's eyes and see what's going on everyone is shutting the younger generation mouth because they ask question about the tradition older generation followed without knowing it's origin or why it's followed. A girl or a boy they should be allowed to do what like boys Boys should be allowed to wear skirts, if they like girls should be allowed to do physical things without being judged Because clothes don't have genders. If you say "The time has changed and so should we.

SCIENTIST OF THE MONTH - ALBERT EINSTEIN

$$E=mc^2$$

1. Albert Einstein was born in Germany on 14 March 1879.
2. Einstein's parents were both Jewish and he had a younger sister called Maja.
3. Although he apparently didn't like school, **Einstein showed he had a great mind for maths and science from a young age.**
4. When he was just five years old, his father bought him a compass. His enquiring mind immediately started trying to work out just why the needle always pointed north!
5. When Einstein was 15, his family moved to Milan in Italy. From there he attended the **Polytechnic Academy** in the Swiss city of Zurich.
6. In 1900 Einstein graduated with a degree in physics and maths.
7. Einstein began to make his mark after he took a job at the **Patent Office** in Bern, where he looked into other people's inventions. While he was there he worked on his own discoveries and found out many things that became of great importance in the world of physics.
8. Einstein is probably most famous for his '**theory of relativity**' and the equation he made famous, $E=mc^2$, which proved that even the smallest amount of mass (basically the stuff that's in everything!) can be turned into a huge amount of energy.
9. In 1921 he was awarded the NOBEL prize for Physics
10. Einstein lived in Germany during World War 1 but he was a **pacifist** – this meant he didn't believe in war and violence and wanted disagreements to be settled peacefully. In 1933 he moved to the USA.
11. On April 18 1955, Albert Einstein died at the age of 76 from heart failure.
12. In 1999 he was named Person of the Century by Time Magazine.
