## My First Day at School – 2<sup>nd</sup> June

Every day we learn new things at school and enjoy with friends. All my teachers love me and always support me. We are learning discipline and punctuality from my teachers and it will help us a lot in future. I am proud to be a student of our school, and I will miss my school after leaving it.

### **The International Day of Yoga**

The International Yoga Day is in recognition of Yoga that is celebrated across the world annually on 21 June, hence in our KMR School, Students had practiced some yogasanas on that day.

**Click the link to view the video [https://youtu.be/JYR\\_P4eLTV0](https://youtu.be/JYR_P4eLTV0)**

Since Yoga practices such as deep breathing & meditation can significantly reduce stress & anxiety levels, we have been doing Yoga as part of ECA. This is particularly beneficial for students facing academic pressures &

social challenges. Yoga helps to improve concentration & focus by calming the mind & reducing distractions.

## **Maths Project for Grade III Students**

### **Topic: Numbers beyond 999**

This is a skill based activity to find the birth year of family members and arrange them in order and also to classify them as even or odd. Through this activity students are encouraged to ask questions. This activity connects what they have learnt in class room to their day to day life.

**By Mrs.Charumathi III B Class Teacher**

## **Maths Project for Grade VII**

Convection current is caused by the rising and sinking of the heated and cooled fluids. You can see evidence of the convection current if you look at the food coloring in the bowl. Notice bubbles of food coloring rise from the centre of the bowl, drift to edges of the bowl, and sink back to the bottom.

**By Ms.S.Kuberi Sitha VII C – Class Teacher**

## **Circle Day Activity for KG Students**

This circle day activity was conducted on June 20<sup>th</sup> by KG Department to encourage the students to draw a circle and color it. Eventually through this activity KG students learned about circle and how to identify the shape.

**By Nandhini KG Teacher**

## Red Day Celebration

In this academic year 2024- 25 we started our color day celebration on 27<sup>th</sup> June and the first color we celebrated was RED. Red indicates the sign of love in one way, it shows danger another way. Through this Red Day Celebration students were able to learn about fruits and vegetables which are in red color.

Pre-KG students had done flower printing activity, LKG Students did cotton dabbing activity and UKG students did craft on crab and ant.

Finally, we ended our Red Day Celebration made fruit salad. In this activity students learnt good vocabulary, and we all together tasted the fruit salad. We really enjoyed a lot.

## **One Day Workshop on Transactional Analysis**

Date: 22/06/2024 Time: 9AM – 4PM

Venue: KMR School Auditorium

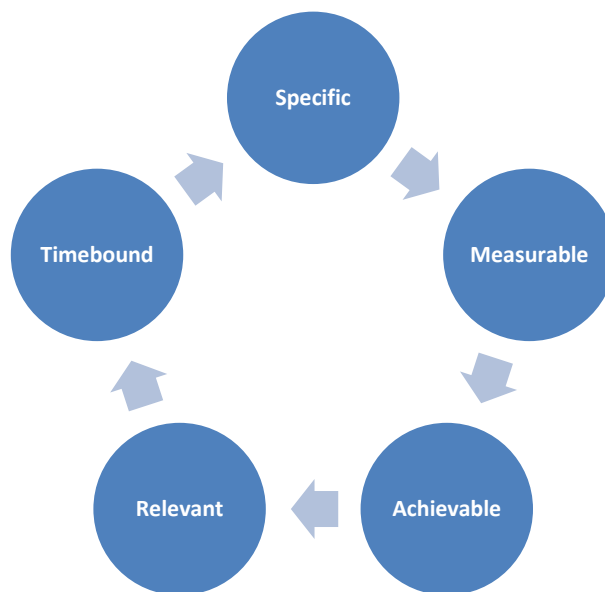

Guest Lecturer: Dr. Rajeshwari

Objectives:

The primary objective of this workshop was to equip teachers with advanced methodologies to improve students and make them engaging on leading practice and learning outcomes the work shop aimed to

- Fostering a collaborative environment for sharing best practices in the school
- Learning output and outcome

This session began with an ice breaker activity where the teachers were separated into two groups and they were associated with a partner. In this activity, teachers were introduced to the concept of SMART Goals

And how to apply them to real life situations with practical examples were provided and teachers worked in groups to draft their own SMART Goals.

Reading campaign was successful in meeting its objectives, providing tips for valuable professional development and fostering a collaborative

environment. Teachers left the workshop with a renewed sense of purpose and practical strategies to enhance leading engagement and proficiency among students.

Follow up work was given to the teachers to make action plan for reading practices.

25		Mr. N. Karthick Kumar	Physics IIT	6, 7, 8
26		Mr. R. Bhuvaneshwaran	Chemistry IIT	9, 10, 11
27		Mr. Maragatha Vel	Maths IIT	7, 8

## **SYNERGY-Theme of the year- Article by T M Charles Advisor KMR International School**

**Synergy in a school environment means creating a collaborative and supportive community where students, teachers, staff, and parents work together to achieve common goals. Here are some ways to foster synergy in a school:**

**1. Encourage teamwork:**

Promote collaborative projects and activities among students, teachers, and staff.

**2. Open communication:**

Foster an environment where everyone feels heard and valued.

**3. Shared goals:**

Establish common objectives and work together to achieve them.

**4. Cross-curricular learning:**

Integrate subjects and projects to connect learning across disciplines.

**5. Student empowerment:**

Encourage student leadership and involvement in decision-making processes.

**6. Teacher collaboration:**

Provide opportunities for teachers to share resources, ideas, and best practices.

**7. Parental involvement:**

Engage parents in school activities, events, and decision-making processes.

**8. Celebrate diversity:**

Embrace and celebrate the diversity of students, staff, and families.

**9. Professional development:**

Provide opportunities for staff to grow and develop professionally.

**10. Positive school culture:**

Foster a culture of respect, empathy, and support.

**11. Student-teacher mentorship:**

Encourage mentorship relationships between students and teachers.

**12. Community engagement:** Engage with local communities, organizations, and businesses to enhance learning.

**By Mr.Charles, Advisor**

**By implementing these strategies, you can create a synergistic school environment where everyone works together to achieve great things!**

**Senior Principal’s Message**

We want all our students to succeed not just academically but in all aspects of life. Learning life skills is as important as learning mathematics or history .Even the government is focusing on the development of skills in students.

"The future belongs to those who learn more skills and combine them in a creative way," goes a quote. **WORLD YOUTH SKILLS DAY** is observed on July 15th every year...Here are my reflections on **SKILLS**.

The primary reason for the need to learn skills is that it opens several more doors of opportunities for them. Hard skills are mostly knowledge based, whereas soft skills are related to our personality. Skill development increases one s self esteem and self confidence. In skill based learning, students are

pushed to think out of the box. It fine-tunes students' minds and they grow up to be a lot more self assured.

Let us take up INTER PERSONAL SKILLS for instance. They are also called PEOPLE SKILLS. Communications skills top the list of inter personal skills. It involves the ability to communicate, build relationships with others, active listening, leadership and teamwork, which largely contribute to creating a positive and productive

environment. Some are born with good interpersonal skills but each of us can learn, develop and improve them too.

This year's theme for WORLD YOUTH SKILLS DAY is YOUTH SKILLS FOR PEACE AND DEVELOPMENT. So dear students, master your life by learning new skills every day.

Best wishes!

### **Principal's Message**

### **Dear Students,**

arrive on time for school, deliver projects by their deadlines, and respect others' schedules, you're sending a powerful message.

Best Regards

Teachers and parents come to see you as reliable and pro active student, which invariably strengthens relationships between us.
